EDUCATION

Institute of Engineering and Technology, Lucknow
Bachelor of Technology, Computer Science and Engineering

2020 – 2024
CGPA: 8.22/10

EXPERIENCE

HP Inc.

Software Engineer

Jul 2024 – Present

Bangalore, India

- **Auto-Triage:** Designed and developed LangGraph-based multi-agent systems for automated bug triage and issue routing across printer platforms.
- Built reusable agent and tool abstractions using AgentSDK, reducing new agent onboarding effort by 50%.
- Implemented LLM response validation and inference guardrails, improving prediction accuracy by 60%.
- Engineered structured logging and observability pipelines, improving debugging efficiency by 30%.
- Developed internal Gradio-based applications for log analysis, root-cause investigation, and automated team assignment.
- **FleetAI:** Designed and maintained LangGraph-based multi-agent workflows for enterprise printer onboarding and management.
- Developed backend APIs connecting AI agents, and frontend applications.
- Built multi-layer validation mechanisms for Knowledge Graph ingestion pipelines, improving data consistency and reliability.
- Developed a reusable evaluation framework integrating RAGAS, DeepEval, and traditional metrics for automated benchmarking and dashboard reporting.

HP Inc.

R&D Intern

Feb 2024 – Jun 2024

Bangalore, India

- Contributed to the Ecosystem Triage Framework using Python, HTML, and CSS.
- Developed automation workflows and backend components for internal engineering tools.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL, JavaScript

Agentic AI: LangGraph, LangChain, OpenAI Agents SDK, Multi-Agent Systems, RAG

Knowledge Graphs: Neo4j, Cypher

LLM Evaluation: RAGAS, DeepEval, GEval

Backend: Django, REST APIs, Gradio

ML/Data: XGBoost, LightGBM, FAISS, Sentence Transformers

Tools: Docker, Git, Linux, WSL, Ollama

ACHIEVEMENTS

- Codeforces Specialist (Max Rating: 1418) – HRN_Harshit
- CodeChef 3star Programmer (Max Rating: 1666) – hars_02
- Solved 1000+ DSA problems across LeetCode, Codeforces, CodeChef, GeeksforGeeks, and HackerRank
